in cooperation with

Arbeitsgruppe Pferd presents:

EQUINE ORTHOPAEDIC CASE DAYS 2025

October 3 to 5, 2025 · Bargteheide, Germany

PROGRAM

Friday, October 3 | Practical work | Equine Clinic

Clinical lameness examination, radiographic and ultrasonographic evaluation of lameness in horses with highly experienced equine orthopaedic experts.

We will work on lameness cases at the equine clinic. The day will be divided into three sessions each of 120 minutes. In each session a new case will be presented, but the group of participants changes (so the participants get an opportunity to experience each of the instructors). Horses will undergo the routine clinical examination of each instructor (including diagnostic anaesthesia as necessary), radiography, ultrasonography, etc. Scintigraphic and magnetic resonance images will be available for some horses.

09:00 Welcome

09:15 All the horses to be examined will be presented at walk and trot in straight lines and circles so that everyone is familiar with all the horses prior to investigation by the instructors. The instructors may advise additional manoeuvres depending on the clinical presentation of each horse. The results of the complete investigations will be presented on day 2, with discussion about diagnosis, treatment and management.

10:45 First round of horses
13:00 Lunch
14:00 Second round of horses
16:15 Coffee break
16:30 Third round of horses
18:00 End

Saturday, October 4 | Case presentations | Hotel am Schloss Ahrensburg

09:00 Selected cases worked from the day before will be discussed in depth including their treatment and management. Sue Dyson will moderate the discussion.
18:00 End
18:30 Depart for surprise evening

Sunday, October 5 | Theory and practical work | Equine Clinic

09:00 Follow-up examination of selected cases based on the discussion on day 2.
10:30 Coffee break
11:00 Wet labs to improve skills, when appropriate included in the examination of selected cases. Please select 2 of them:
1) Radiography
2) Ultrasound
3) Local anaesthesia (cadaver limbs)
4) Objective and subjective gait analysis
13:00 Lunch
14:00 Continue wet labs
16:00 Final discussion of findings on horses examined today.
17:00 End
